Typescript | HTML & CSS | Sanity (CMS)

🧩 Soft Skills

Leadership

Leading people to their main goals and fostering cooperation

A strong team is characterized by effective teamwork.

Presentation

Presentation English fluently and confidently

With all my technical skills, I also possess fluent English speaking abilities, enabling effective communication with foreign English speakers. Moreover, I have the confidence to deliver presentations to groups of people in English.

Determined

Focus and never give up

As stated, I often encounter frustration in real life. However, I recognize the importance of discipline in both work and personal life. Therefore, having a disciplined mindset is advantageous for me.

Fast learner

Can learner things quickly

Everything is constantly evolving, the ability to learn is crucial. I am a highly motivated individual with a strong willingness to learn and acquire any skills that may be required by the company.

📁 Projects

ManhHieu Photographer 🔗

Built with ReactJS Eco and Sanity for CMS

Jul 2023 – present

This website is building and designing by me, as a Full Stack Developer and UI UX designer. This project is building for a personal client with Full Responsive and CMS with Sanity.Pixel to pixel and BEM

Trackit 🔗

Task Track Progress for Start up - Team

Jun 2023 – present

The task tracker app is simple and easy to use, with a clean and modern design. The use of React JS is apparent, with the app being fast and responsive, and the state management being handled efficiently.

Crypto Flow 🔗

Built with Javascript and Grunt for Scss in-depth.

Aug 2023 – present

This project is building as a Front End Role . Using Scss and Grunt for Task Runner and Basic Javascript with Pixel to Pixel coding and BEM.

Wooder 🔗

Interior Agency

Jul 2023 – Aug 2023

Build for Interior Agency and using Javascript and Scss.Practice SCSS for UI Responsive . Pixel to pixel and BEM

Iphone 14 Product Advertising 🔗

3D Website - Three.JS

Jun 2023 – Jul 2023

Moved on to designing the 3D model of the iPhone using Three.js, paying attention to the details and ensuring that the model was as realistic as possible. Deployed the web project to a hosting platform as Vercel

Maison De Villa 🔗

AI module - Leonardo AI - AI implement

Jun 2023 – Jun 2023

A Rental Houses Platform, with core functionality , implement AI technology
Quick brief for the platform : Core customer is the house owner with a lot of properties, and they want to have there own platform for there marketing. I build in 2 weeks with headless CMS Sanity, and Redux for state. The platform implement AI technology for the customer purpose, such as they want to design their house with AI.

Netflix Dashboard Re-Design 🔗

Design Dashboard for Netflix Ideals

May 2023 – May 2023

A Dashboard for film and tv shows, re-design with Figma and build on top React JS. This project for the design i love in the platform Dribbble and re-design it

Trading Ideas Platform 🔗

Client Required - Tradingview - CRUD

Apr 2023 – Apr 2023

I built this website for a client in the trading industry and utilized the React JS ecosystem, in combination with the headless CMS Sanity.
